Luxury Vinyl Planks

Golden Elite's Luxury Vinyl Flooring is a 100% water-resistant flooring product.

This vinyl can be used in a variety of domestic applications, such as for the kitchen, laundry and commercial applications as it is commercially graded with a 0,5mm wear layer and highly durable, with a slip rate of R10 or P3.

Cleaning the Luxury Vinyl is effortless as you will be able to use your conventional mop and vacuum. As it is 100% water resistant, it will not warp or harbour mould, even under the most humid Australian weather.

GE's Luxury Vinyl has a micro bevelled edge on top and an inverted bevel edge on the back for better glue adhesion. The Fibre glass core has thinner particles with a thicker mesh that provides more stability.
